Prix: 59,950

Body Style: Coupé

Transmission: Manual

Mileage: 80000 ft

Fuel: Petrol

Information: This is a well known race car which was famously

supplémentaire:

and very successfully raced by Dennis Leech and others in the 1990's. The car has never finished less than 2nd and has had many overall wins.

Additionally it has achieved various lap records and currently holds the lap record at Castle Combe which will stand forever due to circuit changes. In 2012 the car was stripped to a bare metal body shell and completely rebuilt. To build to this current spec has cost in excess of £110,000. Much too much to list here so please see our main website [bhpmsport dot com](http://bhpmsport.com) for a full description and 40 photographs.

The car is on the button and ready to compete in 2013. Full Workshop facilities on site ranging from a minor service to full concours restoration and race preparation. BHP are renowned High Performance Specialists.
