Built: 2002

Prix: 2,200

Body Style: Sedan

Transmission: Manual

Mileage: 147,000 ft

Fuel: Diesel

Information: This is my A4 and the best car I have driven.

supplémentaire:

Legendary Audi build quality means the ride and handling is great. Superb power from the excellent diesel engine and brakes and gearbox are perfect. Just been serviced and had a new front tyre. Only three small issues, the aircon is not working as it needs a new compressor. Climate control is fine apart from this. Passenger door needs a new latch so central locking leaves this unlocked but as I live in a theft-free zone that has been no problem. A small area of bubbly rust on nearside wing, but easily sorted with a patch or a new panel. Economical mpg of near 50. MOT and tax until end September
